

THE OWN VOICE CHECKLIST

5 ways to sound like you when you use AI for content.

Plenty of people read from AI scripts. Very few can speak off the cuff, and a real opinion in your own voice is something a script cannot copy. Use AI to find your points, not to replace your voice.

THE 5 WAYS

1. Write your own opinion first, in one sentence, before you open any AI tool.
2. Ask AI to interview you with questions, and answer each one out loud.
3. Add one real story from your own work.
4. Cut every sentence you would never say out loud.
5. Record it without reading, and post the first clean take.

AI INTERVIEW PROMPT (COPY AND FILL IN)

PASTE THIS

Interview me about [TOPIC] for a short video. Ask me one question at a time and wait for my answer. After five questions, show me the three points that came up most, in my own words. Do not add facts I did not say.

MY OPINION SHEET

Topic

My honest opinion (1 sentence)

A story from my work

THE CUT TEST

- Would I say this out loud to a client?
- Does it sound like a brochure?
- Is there a story or an example instead of a claim?
- Is every fact something I know is true?

Educational only. AI can be wrong. No views or results promised. Educational only. Results vary by business and by account. No views, sales or income results promised.

Now put it in front of more people.
