

CHATGPT'S \$0 MONEY PLAN

Every prompt behind the plan: one AI service, 50 local buyers, \$200 a month each

I asked ChatGPT to make me as much money as possible starting from \$0. It didn't say crypto or dropshipping. It said: sell a small, boring service that local businesses already pay for, do it with AI, and charge monthly. Below is every prompt, in order. Swap anything in [BRACKETS]. Realistic target: 10 clients x \$200/month = \$2,000/month recurring. It takes work, mostly outreach, not luck.

THE 5 STEPS

- STEP 1 – Sell a service, not a product. No inventory, no ad spend, paid from week one.
- STEP 2 – Pick ONE service AI does in under an hour a week per client (review replies, Google Business posts, a simple website, social captions, a monthly email).
- STEP 3 – Find 50 buyers: one town + one niche on Google Maps. Collect owner emails.
- STEP 4 – Lead with a free sample: do part of the work before you ask for anything.
- STEP 5 – Charge \$200/month. Ten clients = \$2,000/month. Raise prices once you have proof.

THE PROMPTS

PROMPT 1

The money plan

Act as a ruthless business strategist. I have \$0, a laptop, ChatGPT and [HOURS] hours a week. My skills: [SKILLS]. My town: [TOWN]. Give me the single fastest way to make \$2,000 a month in recurring income by selling an AI-powered service to local businesses. Pick ONE service, ONE niche and ONE price. No courses, no ads, no inventory. Explain why it beats the alternatives in 5 bullets.

PROMPT 2

Package the service

Turn [SERVICE] for [NICHE] into a done-for-you monthly package at \$200/month. Write: what's included, what's not, how many hours it takes me per client per week using ChatGPT, and the exact weekly checklist I follow for each client.

PROMPT 3**Find 50 buyers**

List 15 Google Maps search terms to find [NICHE] businesses in [TOWN] and nearby towns that clearly need [SERVICE] (e.g. many unanswered reviews, no website, last post months ago). Then give me a spreadsheet layout: business, owner name, email, phone, why they need it, sample sent, reply.

PROMPT 4**The free sample + email**

Here is a real business: [NAME, LINK, 3 OF THEIR REVIEWS]. 1) Do the work: write replies to these 3 reviews in their voice. 2) Write a 90-word email to the owner from [YOUR NAME] that shows the 3 finished replies, says I'll handle all of them every week for \$200/month, and asks one yes/no question. No hype, no exclamation points.

PROMPT 5**Close, deliver, grow**

A [NICHE] owner replied: '[THEIR REPLY]'. Write my answer and a one-page agreement (scope, \$200/month, cancel any time). Then write the 3-sentence monthly report I send each client, and a script to ask happy clients for one referral.

WHAT TO EXPECT

- Expect roughly 1-3 replies per 50 emails at first. Volume and the free sample are what move that number.
- Your first client is the hardest. After 3, use their results as proof and raise the price.
- Never promise rankings or revenue. Promise the work, delivered every week.

Don't want to hunt for 50 businesses?

- Ready-made local business lists with emails. Message me LIST on Facebook or Instagram.
