

THE AI CAROUSEL PROMPT

5 steps to make a carousel with one prompt.

A carousel is a swipeable post with one idea per slide. AI can draft the text in seconds, and you design it in any tool. Canva has a free plan with limits, and features change. AI can be wrong, so check every fact.

THE 5 STEPS

1. Pick one topic your audience cares about, and who it is for.
2. Ask ChatGPT or Claude for a seven slide carousel. The first slide is the hook, and the last is the call to action.
3. Keep one idea per slide, with big, short text.
4. Paste the text into Canva, which has a free plan with limits, or any design tool.
5. Check every fact, post it, and watch the saves and shares.

THE CAROUSEL PROMPT (COPY AND FILL IN)

PASTE THIS

Create a 7 slide Instagram carousel about [TOPIC] for [WHO IT IS FOR].

Slide 1: a hook of 8 words or fewer.

Slides 2 to 6: one idea per slide, with a short title and one line.

Slide 7: one clear call to action.

Keep every line under 12 words. Do not add facts, numbers or claims I did not give you.

SLIDE PLAN

Slide	Job	My text
1	Hook (8 words or fewer)	
2	Idea one	
3	Idea two	
4	Idea three	
5	Idea four	
6	Idea five	
7	One call to action	

BEFORE YOU POST

- One idea per slide
- Text large enough to read on a phone
- Strong contrast between text and background
- Every fact checked
- The first slide still makes sense as a tiny thumbnail

Educational only. AI can be wrong. Third-party tools change. No views or results promised. Educational only. Results vary by business and by account. No views, sales or income results promised.

Now put it in front of more people.
